

BILL C-2

STOP RACIST POLICIES

Bill C-2 puts more money into border control and makes it harder for migrants and refugees to enter and remain in Canada. Bill C-2 proposes to:

- **Prevent** a majority of migrants from making **refugee claims** in Canada
- Expand the Safe Third Country Agreement, Canada's border wall with the US
- **Expand powers for deportations** including by revoking immigration documents
- **Increase surveillance** and policing against all people in Canada

The Government of Canada must withdraw the recently tabled Bill C-2 to ensure equal rights and permanent resident status for all migrants and refugees.

BILL C-2 HAS IMPACT ON ALL OF US:

- **Mass Surveillance Without Warrants:** Police and CSIS can demand your online data, emails, and browsing history from any company based only on "reasonable suspicion"—no warrant required.
- **Forced Corporate Spying:** Companies must monitor your personal data under secret government orders, with full immunity for privacy violations.
- **Mail Surveillance:** Canada Post can open your mail without a warrant.
- **Access to Your Data:** Bill C-2 prepares Canada to share your personal information with US authorities and other foreign governments, undermining constitutional protections.
